#### KEY RISKS

- Stock Market Risk
- Investment Style Risk (value/dividend focus may underperform growth strategies for extended periods)
- Sector Concentration Risk (Financials, Consumer Staples)
- Income Risk (dividends may be cut or eliminated during economic stress)
- ETF Trading Risk

#### USE CASES

- Income supplement in taxable or tax-advantaged accounts
- Building block for retirees seeking lower-volatility equity exposure
- Complement to growth-oriented holdings in a barbell strategy
