PRINCIPAL INVESTMENT STRATEGIES

The Fund invests at least 99.5% of its total assets in cash, U.S. government securities, and repurchase agreements collateralized by U.S. government securities.

The Fund invests only in:

- U.S. Treasury bills, notes, and bonds (with remaining maturity 397 days or less)
- U.S. government agency obligations (Federal Home Loan Bank, Farm Credit System, etc.)
- Repurchase agreements collateralized by U.S. Treasuries or agency securities

Weighted Average Maturity (WAM): generally maintained between 30 and 60 days.

Weighted Average Life (WAL): generally maintained at 75 days or less.

PRINCIPAL RISKS

Although the Fund seeks to preserve a \$1.00 share price:

1. Income Risk - Yields fluctuate with prevailing short-term rates. During the post-2020 zero-rate period, the Fund's income may be reduced.
2. Manager Risk - Operational error or unsuccessful security selection.
3. Interest Rate Risk - In a rising-rate environment, the Fund's yield rises with a lag (typically 30-60 days).
4. Liquidity Risk - In stressed markets, even Treasury markets can experience temporary liquidity dislocations.
5. Credit Risk - Although limited to U.S. government securities, technical default risk associated with debt-ceiling suspensions of U.S. government securities.

The Fund is NOT FDIC-insured. You could lose money by investing in the Fund.
